

REMARKS

In the Office Action dated November 16, 2004, the Examiner requested the inclusion of U.S. Patent Application numbers for two references cited in the Specification. In the Amendment filed on February 16, 2005, the Specification was amended as proposed with the two serial numbers included in the citations.

However, Applicant's representative noticed that a third reference cited in the Specification also lacked a U.S. Patent Application number. Therefore, while the Amendment filed on February 16, 2005 was fully responsive to the Office Action, Applicant amends the Specification to include the third U.S. Patent Application number.

The Examiner is respectfully requested to enter the amendment into the record. Favorable and early consideration and allowance of the Application are requested. Should the Examiner have any questions regarding this Amendment, or regarding the Application generally, the Examiner is invited to telephone the undersigned attorney.

Respectfully submitted,
